SCIENTIFIC RESEARCH ACTIVITIES

Teachers of the department conduct state budget and contractual research work to solve urgent problems in the field of life safety. Students take an active part in these works.

Also, the department holds student scientific and practical conferences, where teachers and students of the department participate.

Students of the department take part in the Republican scientific and practical conferences, students' reports are awarded with prizes, diplomas and thanks.

There is a scientific student circle at the department: "Industrial safety and energy" (heads: associate professors Erkonyr A.K., Boranbai M.R., senior lecturer Shakenova Zh.K.). The work of the circle is carried out in accordance with the approved plan.

- 2021-2022 academic year
- 2020-2021 academic year
- 2019-2020 academic year
- 2018-2019 academic year
